

Children of the Stars: How to Play

By: Michaela Schwappach

1. The game initiates with a start screen. The player must click anywhere on the start button to proceed to the next screen.

2. The Following screen is the Instructions screen. It gives the player the move controls, the goal of the game, and warns them of the enemies and lethality of the bottom of the screen. Again, to proceed, the player must click anywhere on the begin button.

3. The next screen is the Game screen. The screen starts the character to the left middle of the screen, and randomly initiates the stardust and initial enemies. Use the **Space bar** to go up, and **arrow keys** to go left and right. As you play, the stardust you collect adds to the score. Once you reach 10 points, larger enemies begin to appear. Once killed, the next screen will initiate.

4. The last screen is the Replay Screen. It displays the score you achieved as well as the current high score. If you beat the highest score, your score will display in the High score box. At the bottom, there is a Try Again button that you can click to play again as many times as you want. To exit, click the red X in the corner of the screen
